

Pro Infinite Wheel Selector

Hello and thanks for purchasing the Pro Infinite Wheel Selector asset!

You can chose any of the 10 premade examples and use directly in your game or create new behavior with no necessity of write a line of code, you can use 3D components too. The demo scene show you how add the asset to yours games and the 10 premade wheel configuration ready to use, only remember add all scenes to the build settings, use the menu File->Build Settings...

If you want, you can watch this tutorial. It covers how set easily a wheel menu in seconds:

https://youtu.be/cKpGmt_e3gA ,

I hope you enjoy this asset and if you create cool stuff with it, please send me a link to your game!

If you have any issues or question then please don't hesitate to contact us:
